

Nuclear and Particle Physics Facilities

Brookhaven Accelerator Test Facility
Upton, New York

Argonne Tandem Linac Accelerator System
Argonne, Illinois

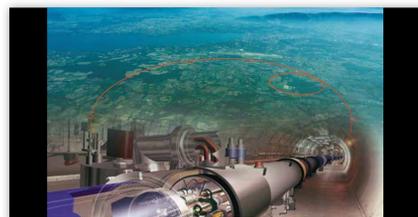

Facility for Advanced Accelerator Experimental Tests
Stanford, California

Fermi National Accelerator Laboratory
Batavia, Illinois

Thomas Jefferson National Accelerator Facility
Newport News, Virginia

U.S. Large Hadron Collider Program
CERN, Switzerland

National Superconducting Cyclotron Laboratory
East Lansing, Michigan

Relativistic Heavy Ion Collider
Upton, New York

Particle Physics and Astrophysics at SLAC
Stanford, California

Brookhaven Tandem Van de Graaff Accelerator
Upton, New York

Weapons Neutron Research Facility
Los Alamos, New Mexico

Environmental Research Facilities

Atmospheric Radiation Measurement Climate Research
Global Network

Environmental Molecular Sciences Laboratory
Richland, Washington

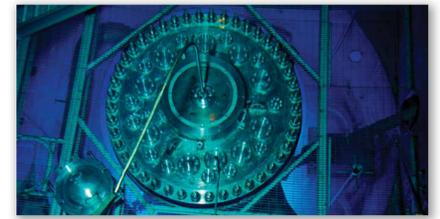

Center for Accelerator Mass Spectrometry
Livermore, California

Neutron Facilities

Advanced Test Reactor
Arco, Idaho

High Flux Isotope Reactor
Oak Ridge, Tennessee

Lujan Neutron Scattering Center at LANSCE
Los Alamos, New Mexico

Spallation Neutron Source
Oak Ridge, Tennessee

Specialized Facilities

Joint Genome Institute
Berkeley, California

NASA Space Radiation Laboratory
Upton, New York

Proton Radiography at LANSCE
Los Alamos, New Mexico

Transportation Research Analysis Computing Center
Argonne, Illinois

Astronomical Research Facilities

National Astronomy and Ionosphere Center
Arecibo, Puerto Rico

National Optical Astronomy Observatory
Tucson, Arizona

National Radio Astronomy Observatory
Charlottesville, Virginia

Light Sources

Advanced Light Source
Berkeley, California

Advanced Photon Source
Argonne, Illinois

Center for Advanced Microstructures and Devices
Baton Rouge, Louisiana

Cornell High Energy Synchrotron Source
Ithaca, New York

Linac Coherent Light Source
Stanford, California

National Synchrotron Light Source
Upton, New York

Stanford Synchrotron Radiation Lightsource
Stanford, California

Nanoscale Science Facilities

Center for Functional Nanomaterials
Upton, New York

Center for Integrated Nanotechnologies
Albuquerque, New Mexico

Center for Nanoscale Materials
Argonne, Illinois

Center for Nanophase Materials Sciences
Oak Ridge, Tennessee

Molecular Foundry
Berkeley, California

Materials Facilities

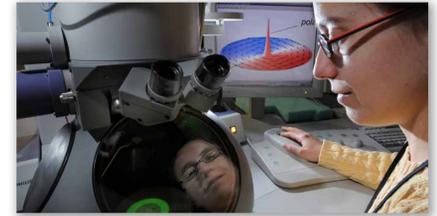

High Temperature Materials Laboratory
Oak Ridge, Tennessee

National High Magnetic Field Laboratory
Tallahassee, Florida

National Center for Electron Microscopy
Berkeley, California

Electron Microscopy Center
Argonne, Illinois

Laser and Fusion Facilities

Jupiter Laser Facility
Livermore, California

National Ignition Facility
Livermore, California

Omega Laser Facility
Rochester, New York

Supercomputers and High-bandwidth Networks

Argonne Leadership Computing Facility
Argonne, Illinois

Energy Sciences Network
Berkeley, California

National Energy Research Scientific Computing Center
Berkeley, California

Oak Ridge Leadership Computing Facility
Oak Ridge, Tennessee
