

The purpose of this form is to ensure that the appropriate quality assurance records are present in the QA records packages for hardware being installed at SLAC. This form is required to be completed by ANL LCLS project personnel prior to authorizing shipments to SLAC.

System or Component Name: Extrusion Polishing

Part/Drawing Number: SOW L143-00097

Serial Numbers: 39

Supplier Name: Engineered Finishing Corporation

PO Number: 8A-00222

Responsible LCLS Technical Lead: Dean Walters

Responsible Engineer: G. Wiemerslage

No.	Record Name	Document number	Record Source	Comments	Present (Y, N, or NA)?
1.	Supplier polishing record for each extrusion		EFC	See record 31	Y
2.	Completed ANL-266 Completed ANL Acceptance Criteria Listing E7-275017		ANL		Y
3.	Supplier QA Manual		EFC	Accepted by T. Barsz during visit to EFC on 11/15/07.	N
4.	Supplier certificate of conformance for polishing process		EFC	Required by ANL-407 section 4.15	NA
5.	Material certificate for polishing media		EFC	Required by ANL-407 section 4.14. Tom Barsz obtained during 11/15/07 visit	Y
6.	Calibration certificates for pressure gages		EFC	Required by ANL-407 section 4.29. Tom Barsz obtained during 11/15/07 visit	Y
7.	Completed ANL-311 Supplier Disposition Reports		EFC		Y
8.	Completed ANL-626 Supplier Nonconformance Reports		T. Barsz		NA

Optional notes or Comments:

#4 Not req'd per G. Wiemerslage 2/4/08

System or Component Name: Vacuum Chamber Machining

Part/Drawing Number: L1440202-200010

Serial Numbers: 39

Supplier Name: Hi-Tech Manufacturing Inc

PO Number: 8A-01238

Responsible LCIS Technical Lead: Dean Walters

Responsible Engineer: E. Trakhtenberg

No.	Record Name	Document number	Record Source	Comments	Present (Y, N, or N/A)?
9.	Completed ANL-266 Completed ANL Acceptance Criteria Listing E7-295080		ANL	Part of requisition approval conditions	Y
10.	Supplier Certification of Conformance for all critical dimensions		Hi-Tech	Required by SOW. See record 30.	Y
11.	Supplier Inspection Plan		Hi-Tech	Required by SOW	N/A
12.	Supplier QA Manual		Hi-Tech	Supplier QA Manual was submitted and accepted by T. Barsz for the LCIS Support Mover Contract	N
13.	Supplier Thickness measurement procedure		Hi-Tech	Required by ANL-407 form	N/A
14.	Supplier inspection and test reports and as built drawing		Hi-Tech	Required by section 4.19 of the ANL-407 form	N/A
15.	Supplier calibration certificates		Hi-Tech	Required by ANL-407 form	N/A
16.	Completed ANL-311 Supplier Disposition Reports		Hi-Tech	Required by SOW and ANL-407 form	N/A
17.	Completed ANL-626 Supplier Nonconformance Reports		T. Barsz		N/A

Optional notes or Comments:

Records 11, 12, 14, 15 are no longer required since ANL performed duplicate inspections prior to shipment to SLAC.

per E. Trakhtenberg 2/5/08

System or Component Name: Vacuum Chamber Inspection

Part/Drawing Number: ESD

Serial Numbers: 39

Supplier Name: ANL Mechanical Engineering Group

PO Number: 8A-01238

Responsible LCLS Technical Lead: P. DenHartog

Responsible Engineer: M. Erdmann

No.	Record Name	Document number	Record Source	Comments	Present (Y, N, or NA)?
18.	LCLS Extruded Vacuum Chamber Traveler	L1440202-00039	M. Erdmann		Y
19.	Inspection/Acceptance Report for machined extrusion	L1440202-00041	M. Erdmann	Rejection for straightness and overall thickness accepted by MJE.	Y
20.	Results Summary Table	L1440202-00041	M. Erdmann	Calculated aperture height is .038mm over the aperture height specified in Table 1 of the ESD.	Y
21.	Inspection/Acceptance Report for Bi-metal flange	L1440202-200050-01	M. Erdmann	Rejection for slot thickness accepted by MJE	Y
22.	Inspection/Acceptance Report for Bi-metal flange	L1440202-200050-01	M. Erdmann	Rejection for slot thickness and overall length accepted by MJE	Y
23.	Results Summary/Excel Graphs	NA	M. Erdmann		Y
24.	Calculation of Residual Outgassing	NA	G. Wiemerslage	All results below 2×10^{-12} Torr-liter/sec-cm ²	Y
25.	Slope Error Report showing green, yellow and red levels of acceptability	NA	G. Wiemerslage		Y
26.	Bakeout Logsheet	NA	B382		Y
27.	RGA Plot				Y
28.	Chamber material certificate showing 6063 Alloy, temper, and hardness		Cardinal Aluminum		Y
29.	Leak Test Certification	NA	Atlas Technologies		Y
30.	Certificate of Inspection	L1440202-200010	Hi-Tech Mfg.		Y
31.	Abrasive Flow Records for 220 & 400 grit from both upstream and downstream ends		Engineered Finishing Corp.		Y

Optional notes or Comments:

The calculated aperture height being .038mm over the aperture height specified in Table 1 of the ESD was reviewed and accepted by P. DenHartog on 2/7/08.

Signature of person that completed this checklist: Tring Date: 2/7/08

Concurrence signatures of checklist:

Responsible ANL LCLS Engineer: [Signature] Date: 2/5/08

Responsible ANL QA Coordinator: Tring Date: 2/7/08

Responsible ANL LCLS Technical Lead: [Signature] Date: 2/5/08

ANL LCLS Project Manager: [Signature] Date: 2/15/08

Distribute completed checklist to: ANL QA Records package. ANL Engineer. ANL LCLS Technical Lead. ANL LCLS Quality Assurance Coordinator.

The purpose of this form is to ensure that the required actions are completed prior to authorizing shipments of hardware to be installed at SLAC.

System or Component Name: Aluminum Vacuum Chambers

Part/Drawing Number: 4440202-20010 Serial Numbers: 37, 39, 41, 45, 46

Supplier Name: H. Tech Purchase Order Number: 8A-01238

Special Instructions:

Task No.	Task Descriptions (attach continuation sheets if additional steps are required) *Inform the LCLS Technical Lead if a task cannot be completed or a requirement met	Completed by*	Date
1.	Verify that the Bill of Material, drawing list, and SOW shown in the ASK System agrees with what is being shipped	<i>[Signature]</i>	2-21-08
2.	Verify that a packing list has been included for each shipping container	NA	
3.	Verify that the shipping address is correct	<i>[Signature]</i>	2/4/08
4.	Verify that SLAC PO number 54628 is included on each shipping container, so the SLAC Receiving Department will know how to process the shipment.	<i>[Signature]</i>	2/4/08
5.	Verify that all records required by the Purchase Order, Statement of Work, Drawings or Nonconformance Reports are present in the ANL QA Records package	<i>[Signature]</i>	2/4/08
6.	Complete a QA Records Checklist form and include it as page 1 in the QA Records Package	<i>[Signature]</i>	2/4/08
7.	Verify that the QA Records Package has been included with the shipment or uploaded to the SLAC ftp site <i>will upload later</i>	<i>[Signature]</i>	2/4/08
8.	Authorize Supplier to proceed with shipment	NA	
9.	Enter shipping information into the ASK system	<i>[Signature]</i>	2/4/08
10.	Send email to Ben Poling (poling@slac.stanford.edu) notifying him that a shipment to SLAC has taken place <i>include SH in approval</i>	<i>[Signature]</i>	2/4/08
11.	Verify that Ben Poling has completed the SLAC portion of ASK System entry		

Distribute: ANL Engineer's QA Records Package. ANL LCLS Quality Assurance Coordinator.

Re-inspection Results (to be completed by person who performed re-insection)

Was reinspection acceptable? Yes No (enter new NCR number) _____

Re-inspection Signature* _____ Date _____

Signature (Disposition/Actions Completed)* _____ Date _____

Signature (Facility/Program Manager)* _____ Date _____

Note: Facility/Program Manager signature only required if disposition is Use-As-Is or involved rework or acceptance criteria other than that originally specified.

SECTION 3: CAUSE AND CORRECTIVE ACTION (To be completed by Responsible Group or QAR)

- Training Deficiency Equipment/Material Problem Procedure Problem Personnel Error
 Design Problem Management Problem External Phenomena Other (provide description below)

Cause/Root Cause:
The RGA requirements in the SLAC ESD appeared to be a carry-over from the SLAC Linac requirements and were felt to be too high for the Vacuum Chamber system. RGA data in the 10E-12 scale was not provided because RGA records for APS ID Aluminum Vacuum chambers showed that the data in the 10E-12 range to be inconclusive noise.

Corrective Action:
G. Wiemerslage to have SLAC revise the ESD RGA requirement or see that the next series of chambers have RGA Plots down to the 1.0E-12 scale

CORRECTIVE ACTION COMPLETED:

Signature (Responsible Group or QAR)* _____ Date _____

* Signatures not required if report is approved via email or the APS ICMS System
(AES QA 3/05) (This report was generated from the AES Quality Assurance Database. Contact AES QA Tom Barsz at 620-252-9177 for details)

UNCERTAINTY IN MEASUREMENT: 2.83% of value

The above instrument was calibrated by standards traceable to the National Institute of Standards & Technology (NIST) per the guidelines specified in the latest revisions of ANSI/NCSS Z540-1, ISO 9002 and ISO/IEC 17025. All measurements performed at 95% Confidence Level (k=2). The results indicated on this certificate relate only to the items calibrated. This certificate shall not be reproduced, except in full, without the written approval of Martin Calibration. Martin Calibration's responsibility shall in no event, nor for any cause whatsoever, exceed the purchase price of this certificate.
